Effortless access.
However you like it.

BLACK X

Trusted Security, Built In

BLACK X isn't just a smart lock—it's a security-first solution. At its heart is a high-security euro cylinder core, offering real physical protection where it counts.

- Anti-Snap, Anti-Bump, Anti-Pick, Anti-Drill, and Freeze-Attack Resistant
- Can also be operated with a traditional key for added flexibility

Enjoy advanced smart functionality backed by the solid, proven strength of true mechanical security.

Certified Cyber Secure

Security isn't just about the door – it's also about the data. BLACK X is IASME IoT Cyber Assurance Level Two Certified, meaning it meets government-recognised standards for:

- Secure software and firmware development
- 128-bit AES encryption
- Data protection and user privacy. Your personal information and usage data are kept private. BLACK X follows strict rules to ensure your data is never misused or exposed.

Your home stays secure – and so does your personal data.

Talk to your trusted installer to get BLACK X fitted today.

BLACK X

Smart, Secure, Simple.
Secure on the outside. Smart on the inside.

BLACK X

Your Access, Your Control.

Meet BLACK X – the smart cylinder designed for the way you live.
No drilling. No wiring. No stress. Just a better way in.

Replaces and upgrades any existing euro cylinder door into a smart door

Fits any door. Lever, pull bar, or escutcheon — no problem.

Unlock it your way.

Choose how you get in – with your phone, a keypad, a fob, a tag, a card, your finger print and even a key if you really want to.

Pair up your phone with the free BLACK X App available on iOS and Android and you can:

- Turn your smart phone into a smart key
- Share access with family, friends, or trusted visitors
- Generate up to 100 million secure unique, 4-9 digit codes with our advanced AI technology for flexible access
- Effortlessly send access codes to anyone—even if they don't have the mobile app
- See who unlocked the door from your phone

Control from anywhere.

Add the optional Wi-Fi Bridge and take full control — wherever you are.

- Let visitors in while you're away
- Unlock the door from anywhere in the world
- Ready for smart home integrations

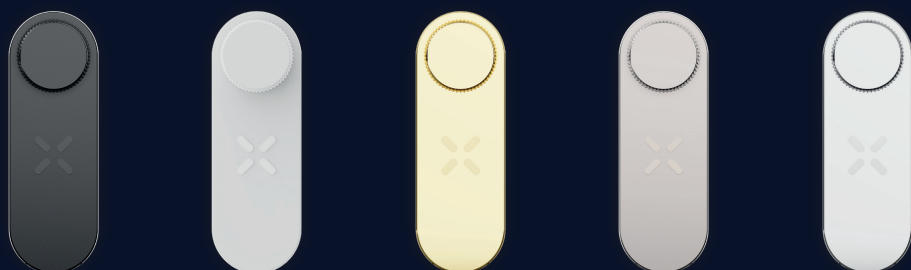

Sophisticated design. Superior intelligence.

BLACK X blends in beautifully – and works quietly behind the scenes. With a 28mm profile and a sleek design it fits perfectly on any door.

- Installs in minutes. No drilling, no wires
- Suitable for all PVCu, Composite, Aluminium, Steel and Timber doors
- Fits all standard euro cylinder doors
- Suitable for Inward and Outward opening doors
- Patio and Sliding Door Compatible
- No calibration or recalibration required
- Runs for up to 3 years on a single CR2 battery (included)
- Add accessories such as the wireless xPad number pad, xPad+ with number pad and fingerprint technology, fobs, tags, cards, and a Wi-Fi bridge for more ways to unlock

Optional Accessories - More ways to open your BLACK X smart door!

5 Stunning Finishes: Matte Black, White, Polished Brass, Satin Nickel or Chrome

One battery. Three years. Simple.

BLACK X runs for up to 3 years on a single CR2 battery.

- No charging cables and the associated cost of charging batteries
- No expensive add-on battery packs
- No battery panic!

While other locks can burn through 12–16 batteries in the same period, BLACK X delivers smarter performance with a smaller (and greener) footprint.
